A. East Cotati Avenue Street Rehabilitation Project

Design Completion: December 2018

Planned Construction: Summer 2019

Description: This project is to receive \$675,000 of federal grant funds and is to repave East Cotati Avenue from the easterly side of the SMART railroad tracks easterly to the City limits, to landscape the existing median, update traffic signs, repair and restore to ADA compliance various cracked and lifted sections of tree root damaged sidewalk, and remove & replace trees causing sidewalk damage.

B. Park Lighting Project

Design Completed Spring 2018

Planned Construction: Under way. Completion expected Fall/Winter 2018

Description: Enhance lighting in La Plaza Park and in the Park Meadows Subdivision (McGinnis Circle), and the W. School Street tunnel.

C. West School Street Path of Travel Project

Design: Awaiting completion of Environmental Review

Planned Construction: Fall 2019

Description: This project uses Community Development Block Grant (CDBG) funds to extend the existing bike/pedestrian pathway from E. School Street approximately 100 feet to Richardson Lane. Additional extensions of the pathway were planned as funds become available for a continual path from the School Street tunnel to Thomas Page School.

D. P-1 Sewer Pipeline

Planned Construction: Fall/Winter 2019

Description: This is a trunk sewer along Hwy 116 and under SR 101 to correct pipeline capacity deficiency from flows east of Hwy 101 to the trunk sewer in Helman Lane which then conveys wastewater to the Santa Rosa Wastewater Treatment Plant. To offset traffic congestion work in critical areas will be done at night. However, traffic congestion is unavoidable and the public is advised to use alternative routes during construction.

E. Veronda-Falletti Building Improvements

Planned Construction: Summer 2019

Description: Project includes remediation and repairs to the water tower and house to preserve the structures.

F. Community Center Reroofing

Planned Construction: Summer 2019

Description: The Community Center's roof has exceeded its useful life span and needs to be replaced. Project removed the existing roof and solar, provides structural improvements to the roof, and installs a new roof complete with new gutters and reinstalls the solar panels.

G. Street Construction Improvements Project

Design: Complete

Planned Construction: August 21 to October 1, 2018

Description: The project consists of pavement overlay in the L Section in the City of Cotati.
